Resources”**

Small Wood Biomass Workshop

Date: June 30, 2005

**Time:
8:00 AM—3:30 PM**

***The Ashley Inn
Cascade, Idaho
1-866-382-5621***

Workshop Overview

Small diameter timber is choking our forests and threatening our homes through its wildland fire potential. Improved forest health is necessary to protect our communities and industry. This workshop is intended to stimulate ideas and discussion that will lead to business opportunities to utilize these

timber resources. Workshop will discuss products made from small diameter timber and investigate funding opportunities and fund availability.
